# Living Fresh Produce Farm (40ft Container) Output

Average of 684 plants harvested every week

Average of leafy green weight is 4oz

Average total weight of leafy greens harvested is around 171 lbs

Total available space for plants is 7,992

The Grow Walls accommodate 4,104 plants total

Multiple plant varieties can be grown at the same time.

## The Stats

200-300 lbs/week yield

3-5 gallons/day

190 kWh. energy/day

15-20 hours of labor/week

Automated watering, lighting

Living Fresh  
Produce Farm  
(40 ft Container)

Estimated ROI  
18-22 months

Estimated annual  
operating cost  
\$11,000

# Living Fresh Produce Gourmet Mushroom Farm

400+ lbs/week yield

25 gallons/day, approx.

18+ varieties grown

35-40 hrs labor/week

Entire cultivation process in 320 square feet

Pre-inoculated substrate blocks and compost

## Gourmet Mushroom Farm (GMF)

Estimated ROI  
16-20 months

Estimated annual  
operating cost  
\$23,000
